# In Memory: JOHN E. GAUTSCH

The 2011 Lycoming County Fair Premium Book is dedicated in memory of John E. Gautsch, who passed away on November 10, 2010.

John was a very dedicated employee for over 20 years. John was our grounds keeper, where you may have seen him anywhere on the fairgrounds mowing the grass, hauling manure, watering the horse ring, working on the 3rd street gate at night and stuffing ground hog holes with bubble gum.

Those of you who knew John well knew he loved to play jokes on people as well as running his clean hands thru your hair. Our Fair family will suffer a great loss from his absence, but the memories we have will be treasured for a long time to come.

Our Deepest sympathy goes out to his family and a big thank you for sharing John with us over the years.

## ***Message from the Secretary***

Greetings to Everyone:

I wish to extend an invitation to the 141st Lycoming County Fair. This has been a very long winter and, so far, not a great Spring, so I do believe we are all ready to get outside and enjoy the Summer fun that the Fair has to offer.

Once again we have been able to offer free entertainment, livestock shows, horse shows, all of the open exhibits, and new this year will be our first bullriding show on Monday, July 18th. This is a very affordable day. For only \$5.00 you can see and ride all day, and don't forget to try the best food in the county.

I invite all to try the competitions in all the departments we have, from your favorite flower to your homemade jam or handmade quilt. It is always fun to see who your competition will be.

On a sad note, I, as well as many others, will miss John E. Gautsch. John passed away on November 10, 2010. I had the pleasure of working with John for over 20 years and we well miss him as he was a great asset to our grounds and our Fair.

Please come and enjoy the fun!

Sincerely,  
Karen Yaw, Secretary

1. NOTE: All days mentioned in Rules and Regulations specifically refer to days falling between the dates of July 14-23, 2011.

2. All Exhibitors are requested to ask the Secretary for Official Entry Blanks. By their use, the work of the Secretary will be greatly facilitated and at the same time proper entry on all articles will be insured. IT IS IMPORTANT THAT ENTRIES BE MADE BY NUMBER — CLASS — DIVISION AND DESCRIPTION. SPECIAL BLANKS ARE PROVIDED FOR ENTERING LIVESTOCK EXHIBITS.

3. All articles entered for competition in the Fair must be on the grounds no later than 6:00 P.M., Thursday, July 14, 2011, unless special permission is given by the Division Superintendent. No article accepted prior to July 13, 2011.

5. No feed will be furnished and only first bedding (sawdust) will be furnished.

6. All articles or animals must be entered in the Secretary's books and all persons desiring to compete for premiums are requested to furnish a written list of such articles or animals to the Secretary by letter or otherwise, as early as possible, and classified according to premium list numbers on the official entry blank furnished by the Association. **USE ONE SIDE ONLY.** All articles must have an attached entry tag.

7. Exhibitors entering cattle, sheep, and swine must give the registration number on the entry list. Stable room will be reserved in the order in which entries are received.

8. All entries must be made by the owner in the name of the owner or joint owners, and no premiums will be awarded to any persons not the owners of the article. Animals (with the exception of rabbits) must be entered in the name of the owner or leasee and premiums will be paid to the same person as named on the entry.

9. No article or animal can compete in more than one class or division except in trial of speed, cattle and swine, unless otherwise noted.

10. If there is but one exhibition of any article or animal, only one premium will be awarded; the first or lower premium as the Judges think deserving. No exhibitor may enter more than one entry in each division of a class with the exception of livestock classes.

11. The Intake Coordinator has the right to reject any entry at the check-in point either for evidence of contagious or infectious disease, evidence of ill health and/or failure to meet health requirements of the PDA or the Fair. Anyone arguing with the Intake Coordinator about his/her decision will be excused from competing with any animal at the Fair. If the Executive Committee and/or Fair Board feel necessary, a private

veterinarian can be called in to render the final opinion. The animal should not be off loaded until that veterinarian has made the call and the veterinarian should issue a CVI for that date. This would be a private veterinarian the owner pays to have come out.

12. Every exhibitor of livestock must have his own choice as to class in which he will enter the animal and abide by it, but great care must be taken to enter each one in its proper class, as no alterations can be made after entries close.

13. Goods and stock must be delivered on the grounds and put in place by exhibitors, a competent person being in charge. Grain to be furnished by the exhibitor. All livestock entries are due June 13.

17. All stock to be what it is represented or no premiums will be awarded.

18. All grain, fruit, vegetables and flowers must be the growth of exhibitors and in case of stock, exhibitors must own or lease the animals at the time of exhibition.

The Fair Association will provide watchmen and police, but will in no case be responsible for accident, loss or damage by fire, theft, or otherwise, that may occur.

21. No person shall act as Judge in any class in which he or she or any member of his or her family is a competitor, and when a premium is awarded to a person or his/her agent who has attempted to influence the Judges, the premium shall be withheld.

22. Judges are urged to examine the premium list with particular care, and in no case to award the premium where there is no merit, or for articles or animals or ordinary or inferior qualities and only those provided for by the premium list. Where articles of merit, superior in their character are presented, not named on the list, Judges are requested to note them particularly in their report and make such recommendations to the Board of Directors as they deem proper.

23. Judges will begin their examination at 9:00 A.M.; they will first report to the Secretary who will give them books for the respective departments and explain the method of entering the awards.

24. Any persons who are dissatisfied with the awards of the Judges shall have the right to appeal in writing to the Board of Directors, whose decision shall be final.

25. Checks will be mailed to the successful contestants as soon as the awards have been approved by the Board of Directors. No advance on premium awards will be paid any exhibitor until the awards have been approved.

## 2011 PENNSYLVANIA DEPARTMENT OF AGRICULTURE PENNSYLVANIA FAIRS, ANIMAL HEALTH REQUIREMENTS FOR EXHIBITION, INCLUDING COMMERCIAL EXHIBITION

This document provides the requirements for the 116 Pennsylvania County and Community Fairs receiving funding from the Commonwealth of Pennsylvania. The management of individual fairs may adopt requirements which are more stringent than those of the Department, and all exhibitors are encouraged to check with the management of each fair in advance to ensure compliance with all requirements.

These requirements are *not* required for local, county, and district 4-H and FFA exhibitions which are not held in conjunction with a Pennsylvania County and Community Fair receiving funding from the Commonwealth of Pennsylvania, but it is recommended that these requirements be adopted by show management.

These requirements are designed to protect animal health while minimizing the financial impact on youth exhibitors associated with the individual certificates of veterinary inspection (CVI) requirement. Please note that exhibitors are not required to send the CVI to the Department for approval prior to the fair – the CVI may be checked at the fair.

For specified events at the Pennsylvania Farm Show Complex, including the Pennsylvania Farm Show, the Pennsylvania All-American Dairy Show, the Pennsylvania State Junior Dairy Show, the Keystone International Livestock Exposition, the Pennsylvania Fall Holstein Show and the Pennsylvania State 4-H Horse Show, exhibitors will need to consult the 2011 requirements for those particular events.

The Pennsylvania Department of Agriculture recommends that animals returning home from fairs be isolated from other members of the herd or flock for 2-4 weeks to help prevent the spread of disease.

In addition to these animal health requirements, the Pennsylvania Department of Agriculture recommends that exhibitors of all animals, including those for commercial exhibit, discuss the health of their animals, including vaccine recommendations, with a veterinarian on a regular basis.

## **Section 1: Pennsylvania Equine Animals:**

### **Requirements:**

1. A Certificate of Veterinary Inspection (CVI) issued within the 30 days prior to the opening date of the exhibition is required. Equine Infectious Anemia (EIA) test results and date of the test must be included on the CVI.
2. All animals must be free of infectious and contagious diseases.
3. An *Animal Owner or Caretaker's Verification of Veterinarian-Client-Patient Relationship (VCPR)* form must accompany each animal, and must be presented upon arrival at the exhibition.
4. All equine animals must test negative for EIA by an official test within the 12 months prior to the opening date of the exhibition. Laboratory test results must accompany each animal to its final destination (a copy of the original lab report is acceptable). Foals less than six months of age accompanied by a dam which meets the above requirements are exempt from EIA testing requirements. If the foal is not accompanied by the dam, a copy of the dam's test results must accompany the foal to its final destination.
5. A current rabies vaccination administered by a licensed veterinarian is required for animals 3 months of age and older. However, if a mare was currently vaccinated against rabies when she foaled, the foal is not required to be vaccinated until six months of age, with a second vaccination administered 2-4 weeks later. All vaccine label directions must be followed, and all rabies vaccinated equine animals must be accompanied by a rabies vaccination certificate or the vaccination information must be included on the CVI. The certificate must contain legible name and contact information of the veterinarian who administered the vaccine and the veterinarian's signature. A copy of the original rabies vaccination certificate is acceptable.

## **Section 2: Pennsylvania Poultry, Waterfowl, Upland Game Birds, Ratites, and Pigeons:**

### **Requirements:**

1. All Pennsylvania poultry, waterfowl, upland game birds, and pigeons entering an exhibition must bear a unique individual identification leg band (official state-issued leg bands are not required). Ratites must be identified with a neck band or an electronic implant device (the exhibitor must supply a reader).
2. An owner-endorsed health certificate must accompany all Pennsylvania poultry, waterfowl, upland game birds, ratites, and pigeons, and must include the following:
  - Name and location of exhibition; and
  - Name, address, and telephone number of the owner; and
  - A statement that their entries and their flock of origin are free of evidence of contagious diseases; and
  - Owner signature and date of that signature;
3. All animals must be free of infectious and contagious diseases.
4. Avian Influenza Clean Testing and Verification (all samples must be collected by a Certified Poultry Technician or an Accredited Veterinarian):
  - All poultry, waterfowl, upland game birds, and ratites, **(pigeons excluded)** for exhibition must originate from a flock in good standing in the Pennsylvania Avian Influenza Monitored Flock program, or from a flock in good standing in the NPIP Avian Influenza Clean program (the flock must be on NPIP - it is not considered to be a clean flock if only coming from a clean breeder flock), and the birds must be accompanied by the most recent negative test report (copy acceptable). The NPIP or AI Mon. flock number must be noted on the report; **OR**
  - The birds must originate from a flock in which a minimum of 30 birds, 3 weeks of age or older, were tested negative for avian influenza within the 6 months prior to opening date of the exhibition and the birds must be accompanied by the negative test report (copy acceptable). If there are fewer than 30 birds in the flock, test all birds. **For waterfowl, cloacal swab samples must be collected for testing, and the swabs must be tested using virus isolation techniques.**

### GUIDELINES FOR CARE OF ANIMALS

1. It is the responsibility of each exhibitor to care for animals in a manner that is responsible and ethical. Following are some guidelines for the treatment of animals exhibited at the show.
  - a. **Restraining Animals**
    - i. Animals should be tied or penned in a manner that will not hurt the animal or restrict its breathing in any way.
    - ii. Animals should be tied so that all four feet are firmly on the ground and they have enough room to stand comfortably and lie down.
    - iii. Animals should be tied so that they are not able to injure animals tied near them.
    - iv. Animals unaccustomed to each other should not be penned together.
  - b. **Handling** – Any type of rough handling which could harm the animal is prohibited. The use of whips, canes, and show sticks should be restricted to showing only and then be used only to guide the animals, not punish them. Remember, animals will respond quicker and better to quiet, gentle handling, than loud, rough handling.
  - c. **Bedding** – All animals should have bedding that is dry and clean. Pens should be cleaned regularly to keep the animals clean and comfortable. If non-traditional bedding such as carpeting is used, it should be regularly cleaned (at least twice daily) to keep the pen free from manure.
  - d. **Feeding & Water** – Animals should be well fed and have access to clean water regularly. Realizing that many market animals must have restricted amounts of feed to maintain the proper weight, animals must be fed adequate amounts of feed to meet the animal's basic requirements. Animals not allowed reasonable access to feed and water will be disqualified from the show.
  - e. **Transportation** – Animals should be transported in a way that is both safe and considerate of the animal's well-being.
  - f. **Blanket/Sweat Collars** – Any type of material such as blankets or sweat collars should be large enough to permit normal body functions such as breathing, eating, drinking or lying down.
  - g. **Health** – It is the responsibility of the exhibitor to provide proper health care for their animals through routine inspection and consultation with health care professionals. The improper or illegal use of drugs or antibiotics is prohibited. If medication is indicated, be sure to follow the label directions and allow more than the state withdrawal time.

## SOME ADVICE TO EXHIBITORS

IMPORTANT TO ALL EXHIBITORS – EVERYONE MUST READ!  
IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS)  
NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. **All exhibitors are required to provide social security number on each entry form.**
2. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
3. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock officials.
4. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
5. Animals shall be presented to show events where they will enter the food chain free of drugs. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood or other substances from the animal to be used in testing. Animals not entered in an event, which culminates with the animal entering the food chain, shall not be administered drugs other than in accordance with federal, state and provincial statutes, regulations and rules. If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medications, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the approved laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden of proof on the owner, exhibitor, fitter, trainer or absolutely responsible person to prove otherwise at any hearing in regard to the matter conducted by the fair or livestock show. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications shall be administered by a licensed veterinarian.
6. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external application of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
7. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
8. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
9. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
10. This application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
11. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have any disciplinary action taken by the fair or livestock show against such individuals published in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notice to members.
12. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

Points will be awarded as follows: 5 pts for first, 4 pts for second, 3 pts for third, 2 pts for fourth, 1 pt for fifth. Attire and tack must be correct for the seat being ridden. Each competitor is allowed two "pit crew" people, who will bring the equipment (tack) and attire into the center of the ring between classes for changes for both rider and horse. Wheel-barrows and wheeled carts are authorized to bring equipment into the ring. To meet the time requirements, pit crew and equipment must be ready outside of the ring. **RULES AND REGULATIONS**

Entry fee must accompany entry papers.

1. All applications for entry must be made on or before June 13, 2011. An extra exhibitor's form to be used for stabling purposes.

2. Purebred animals must be recorded in Registry Association for the respective breed. Animals with papers pending will not be allowed in show ring. All animals must have registration certificates issued by one of the following breed associations: American Guernsey Association, American Jersey Cattle Club, American Milking Shorthorn Society, Ayrshire Breeders Association, Brown Swiss Cattle Breeders Association, Holstein Association of America, or Red & White Dairy Cattle Association.

Jerseys: Animals with Genetic Recovery (fully registered) certificates are eligible. This does not include Original Animals (OA) or Provisional Registry (PR) animals.

Guernseys: Females in Step 4 of the Genetic Recovery program are eligible. Step four females have a "PR" prefix in their name. No other prefixes are eligible.

Holsteins: Any animal identified with Holstein Association, USA, Inc., that is 87% or higher Registered Holstein Ancestry (RHA) is eligible. Previous animals identified as Qualified Entry (QE) animals are eligible. Eligible animals will have a Qualified Holstein certificate with a red border. Only QE animals with a red-border certificate (fourth generation) are eligible. Green certificates or IHF certificates are not eligible.

Red and White Dairy Cattle Association: These animals must be true red in hair color and have a registration certificate from the Red and White Dairy Cattle Association (phone 608-676-4900). Registration certificates from other breeds will not be accepted for the Red and White classes.

Brown Swiss: Step II IE Identity Enrollment animals which have a 379 plus six digit registration number are eligible to be shown. The registration certificate is green with a black border.

Milking Shorthorn: Cattle must have full herdbook six digit Milking Shorthorn Registry Certificates. Tattoo numbers must correspond with registry certificates. Milking Shorthorn females with nine-digit Birth Record certificates (beginning with 36,000 or 37,000) are not eligible to show.

Canadian registry certificates will not be accepted.

3. All animals must be owned by the exhibitor 30 days prior to this show. No dairy animal born after May 31, 2011 may be shown.

4. No entries under quarantine for any disease or showing clinical evidence of infectious or contagious disease will be admitted to a show. Registration papers and health certificates must be checked and approved before cattle can be unloaded at Fair Grounds. Health chart must be filled out and must accompany the animal before unloading. **Any health charts or contagious disease in question will be examined by the PDA Vet and their decision will be final.**

5. The Dairy Superintendent reserves the right of declining to receive any entry. Furthermore, the Dairy Superintendent reserves the right to bar from competition animals of decidedly inferior conformation of type or mobility, and those not possessing sufficient merit to warrant recognition.

6. Exhibitors will be expected to display or parade their animals as directed by the Dairy Superintendent; to accept the stall assigned without controversy; to keep their animals in an attractive appearance; and to cooperate with the Department in every way that may serve to increase the educational value of the show.

7. Exhibitors of livestock must inform themselves as to when their stock will be judged. Stock must be in the ring promptly on call and a failure to comply with the order renders exhibitors liable to be ruled out of competing. **Classes will be considered closed when the first animal has completed one lap around the ring. Ring managers will determine when a class is closed.** Decorations with ribbons or ornaments previously won by animals at previous shows shall be prohibited.

8. No exhibitor or his agent shall communicate with the Judge while awards are being made, except to answer questions proposed by the Judges. Any exhibitor interfering with the Judge while making awards shall forfeit any premium to which he would otherwise be entitled.

15. Should any animal awarded a prize be disqualified, the animals gaining the lower prizes shall move into the next higher position, if, in the opinion of the Judges, the animals are worthy of such prizes.
16. The management reserves the right to withhold premiums awarded in any case in which it appears that the regulations have not been complied with, or that fraud or deception have been practiced or attempted.
17. The decision of the Judges shall be final in all cases, except where mistakes, fraud, misrepresentation or collusion, not discovered at the time of the award, is proved. In such cases, the Dairy Superintendent, Manager, or Secretary of the Fair or such referee as he may appoint, may make the decision, or with his approval the case may be appealed to the Fair Management or Show Committee, from whose decision there can be no appeal. Any artificial means used to change the form or shape of an animal will disqualify the animal from competition.
18. When on exhibition in the ring, each animal must be under halter, and in charge by owner or employee.
19. Use the following classification in making your entries in the different breeds, and be sure to give the NAME OF THE BREED you are exhibiting on the Entry Blank.
20. Each animal must have an entry tag showing breed name and must be on display and readily identified by viewers. The award winners must be placed in assigned stall for the duration of the Fair. Failure to comply with this regulation will result in forfeiture of premiums.
21. Premiums will be paid only as listed in catalog.
22. All entries subject to available space.
23. ANYONE protesting must put the protest in writing with \$25 and submit it to the Dairy Show Committee before the class is pinned (awarded ribbons).

26. Lycoming County entries are limited to a combined total of 20 per farm, all other counties are limited to a combined total of 15 per farm subject to space availability and at the discretion of the stabling committee.
27. Substitution – If an animal entered is unable to show, a substitute is allowed among the under 2 year old classes and among the 2 year old and over classes.

**P.D.C.A. SHOWING CODE OF ETHICS  
(COURTESY OF P.D.C.A.)**

The showing of registered dairy cattle is an important part of the promotion, merchandising and breeding program of many breeders. Additionally, it is an important part of the program of the Purebred Dairy Cattle Association to stimulate and sustain interest in breeding registered dairy cattle. This relates to both spectators and exhibitors. In this connection, the P.D.C.A. believes that it is in the best interests of the breeders of registered dairy cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring. It recognized that there are certain practices in the proper care and management of dairy cattle, which are advisable to keep them in a sound, healthy condition so that they might be presented in the show ring in a natural, normal appearance and condition. Conversely, it recognizes certain practices in the cataloging, handling, and presentation of cattle in the show ring which are unacceptable.

The following practices or procedures are considered unacceptable and defined as being unethical in the showing of registered dairy cattle:

1. Misrepresenting the age and/or milking status of the animal for the class in which it is shown. In any female classes animals may not be exhibited that are in milk due to an unnaturally induced lactation.
2. Balancing the udder by any means other than by leaving naturally produced milk in any or all quarters.
3. Setting the teats with a mechanical contrivance.
4. Treating or massaging any part of the animal's body, particularly the udder, internally or externally with an irritant, counter-irritant, or other substance to temporarily improve conformation or produce unnatural animation.
5. Minimizing the effect of crampiness by feeding or injecting drugs, depressants or applying packs or using any artificial contrivance or therapeutic treatment excepting normal exercise.
6. Blocking the nerves to the foot to prevent limping by injecting drugs.
7. Striking the animal to cause swelling in a depressed area.
8. Surgery of any kind performed to change the natural contour or appearance of the animal's body, hide or hair. Not included is the removal of warts, teats, and horns, clipping and dressing of hair, and trimming of hooves.
9. Insertion of foreign material under the skin.
10. Changing the color of hair at any point, spot or area on the animal's body.
11. The use of alcoholic beverages in the feed or administered as a drench.
12. Administration of a drug of any kind or description either internally or externally prior to entering the show ring, except for treating a recognized disease or injury and for tranquilizing females in heat. For the purpose of this Code, the term "drug" shall mean any substance, the sale, possession or use of which is controlled by license under federal, state or local laws or regulations; and any substance commonly used by the medical or veterinary professions which affect the circulatory, respiratory or central nervous system of a cow.
13. Criticizing or interfering with the judge, show management, or other exhibitors while in the show ring or other conduct detrimental to the breed or show.

In keeping with the basic philosophy of the Purebred Dairy Cattle Association, ethics are an individual responsibility of the owner of each animal shown. Violations of this Code are subject to the disciplinary provisions of the appropriate dairy breed association and/or show management.
